

Joint Data Support

Data for MRS-05 Nature of the Challenge

- ☞ Multiple organizations running multiple models
- ☞ Continuous refinement of model data requirements
- ☞ Projected year Time-Phased Force Deployment Data (TPFDD) not “off the shelf”
 - ☞ Must be synthesized from multiple sources
 - ☞ Large volume of data, more detail than in past studies
 - ☞ Limited quality control applied to raw data
 - ☞ Must satisfy strict model formats
- ☞ Competing demands for timely versus accurate data
- ☞ Department-wide interest in the data for eventual use in other studies
